Your Co-Pilot in Aviation Training

INDIVIDUAL COURSES TRAINING SERIES
AeroNav Charts Overview

FIXED/ROTOR WING   **IPAD COMPATIBLE**   **APPROX 1.7 HRS**

Presents information on how to read and utilize AeroNav charts. Pilots will gain a basic understanding of the available navigational charts and be able to reinforce training through practical real-world application scenarios.

For Part 135, Part 125, and Part 91 pilot training, our AeroNav Charts Overview course provides a foundation of knowledge and understanding for flight crews to ensure proper chart use.
