Performance Based Navigation

FIXED/ROTOR WING

IPAD COMPATIBLE

APPROX 3.0 HRS

Performance Based Navigation (PBN) provides a modular overview of the types of PBN used, allowing you to focus on elements that apply to your operation. The course contains tutorials that cover an overview of PBN, including RNP 1, 2, 4, and 10, RNP APCH, AR APCH, and Baro-VNAV operations, guidance for B-VNAV and P-RNAV in European airspace, and RNP procedures with Authorization Required (AR).

For Part 135, Part 125, and Part 91 pilot training, our Performance Based Navigation course provides an excellent overview of PBN for both the domestic and international operators.

TUTORIALS

B-RNAV and P-RNAV

1. Guidance for B-RNAV and P-RNAV in European Airspace

PBN Overview

1. Introduction to Performance-Based Navigation
2. Aircraft and Operational Approvals
3. RNAV Operations, U.S. Terminal and En Route Area
4. RNP Operations, Terminal, En Route, and Approach

RNP APCH and Baro-VNAV

1. RNP APCH and Baro-VNAV

RNP AR

1. RNP Procedures with AR

LESSONS

▶ Comprehensive examination covers subject matter from all lessons

Performance Based Navigation

1. PBN Overview (RNP and RNAV)
2. RNP APCH and Baro-VNAV
3. B-RNAV and P-RNAV
4. RNP AR
